of the month

Mad hat

REQUIREMENTS:

DMJ-0004G	Moulding urn or
DMB-00001	Mini bain 1000
DGW-00005	Moulding mix or
WAX-00110	Plusmix
DMJ-0002B	Junior colouring kit or
DMC-0002C	Combi colouring urn
DMM-0004A	Deco Dipping wax, coloured
KPT-03x10	Flat wick 3 x 10
MAL-0031	Transparent cone
ZGL-00200	Glitter crystalline
Pouring jug, whisk, knife, fork	

Heat the wax to 90 °C and thread the wick according to instructions (www.gildewerk.com > service centre > product tips). Mould several colourless cones. Heat the coloured dipping wax to 75 °C and dip the cones in a red wax or any other desired colour.

If you're curious about making other candles, please sign up to one of our workshops

Pour some uncoloured wax into a jug and beat with the whisk until frothy. Once the froth has set but is still slightly liquid, dip the base of the cone twice 2-3 cm deep into the froth.

Suggestions:

For a sparkling effect sprinkle some glitter on the froth.

If the wick is long enough one can stick a little boll of wax on it.

With some wax create a nose at the base. It then looks like the hat is hiding eyes and ears.

- Use your imagination to create other mad hats for Christmas or birthday parties.
