10% DISCOUNT AFTER ATTENDING A WORKSHOP

As a result of the very many positive responses to last year's special offer, we're going to repeat it. It's already been announced, but we are letting you know one more time. We are offering a one-off **10% DISCOUNT** after participation in a workshop.

We have teams in both the Netherlands and France that stay abreast of the trends related to fragrances, colours and designs. These trends are applied in workshops that we present to advanced users, as well as beginners. Basic techniques, seasonal occasions or special events (the upcoming European Championships, for instance) are on offer. Spectacular results can be achieved using mainly simple techniques.

To make it even more attractive to take part in a workshop, we're extending the special offer by which you receive a 10% discount on your first order.

- The discount applies to virtually all items.
- Applies to the first order submitted within two months of the workshop.
- Offer can be taken advantage of once every six months.

Changes to product names and codes

The naming of perfumes is a subject on its own, with the right name suggesting a certain experience related to the fragrance. We've found that the name of our **LAIT** perfume does not live up to expectations and -for this reason - we've decided to change the name to **DAME**. The fragrance will remain the same, only the name and the product code will change.

YZS-1201 Lait becomes
YZS-0404- Dame

NEW MOULDS

Amazing new mould designs

Gildewerk is introducing a **whole new series of new moulds**, including a small steel mould and a square alu-mould that is a bit larger in size and has a synthetic base plate. These, and especially the new series of transparent moulds based on geometric motifs, further enhance our already trusted range.

NEW PERFUME NEW SOAP BASE

Terms such as “**allergenen-free and mild**” currently dominate the skincare scene. We've anticipated this trend by expanding our series of allergen-free perfumes with a new offering called Jeunesse. Its fragrance is gentle and sweet-like with floral elements – most suitable for children and the young at heart.

Our new HV universal soap base also matches this trend. This base is even milder than the normal HV and therefore suits people with **sensitive skins** and children, of course.

We're presenting these products together because we find that they form a combination that we can truly recommend.

OTHER PRODUCTS

We now have an entire series of ready-made products for soap makers who would like to expand their ranges. There's a full product line for a number of fragrances, while for others only soap pieces are available. Here's a hint for soap makers who produce an entire product line: these are, on average, **our best-selling combinations**. If you look carefully, you'll notice that the last four numbers of the product codes are the codes of the perfumes used.
