eco bio natural

October 2010

Although Gildewerk's official colour is actually purple, we would like to show you our 'green' side.

Modern consumers are becoming more and more conscious of the environment. Everyone is now aware that (fossil) fuels are being depleted, meaning that these fuels must be used sparingly. We are hard at work searching for alternative resources. We have also meanwhile identified alternative raw materials for the production of candles.

Consumers aren't just concerned about impending shortages; they also consider responsible production to be an important factor. People don't find it socially acceptable that materials for 'luxury' products are sourced at the cost of agricultural land or rainforests. People are also placing more focus on living healthy lifestyles and there is a trend towards natural and biological products, something which could especially benefit soap producers.

Gildewerk is a champion of this development and has extended its range to include a number of 'green' products which we have set out for you in this correspondence.

ECOSOYA®

WAX-00600

EcoSoya for freestanding candles

WAX-00610

EcoSoya for use in pots

WAX-00620

EcoSoya for use in pots or for massage candles

WAX-00630

EcoSoya for use in pots for all climate conditions

Our new ECO wax is made from soya. The farming of soya does not affect the rainforests, and nobody has to sacrifice agricultural land for its cultivation. Our EcoSoya comes from North America and is cultivated without the use of herbicides and pesticides, and is not genetically modified. It is 100% plant-

based, biodegradable and completely non-hazardous. If you spill EcoSoya on your clothes, a normal wash will remove it. We stock an EcoSoya wax for freestanding candles, one for use in pots and glasses, and one with a low melting point for possible use in massage candles. EcoSoya is supplied in flake form.

You should be familiar with three of our EcoSoya varieties, but now we have a fourth variety, EcoSoya Xcel (WAX-00630). This EcoSoya wax is ideal for use in pots, but has a higher melting point, making it even more suitable for all climate conditions.

EcoSoya	WAX-00600 Pillar blend	WAX-00610 CB-135	WAX-00620 CB-advanced	WAX-00630 Xcel
	price per kg	price per kg	price per kg	price

90,8 kg	4,20	3,45	3,84	4,00
249,7 kg	3,92	3,25	3,60	3,80
498,4 kg	3,55	2,95	3,25	3,44
817,2 kg	3,20	2,65	2,95	3,10
1634,2 kg	2,91	2,42	2,69	2,82

RAPESEED WAX

This rapeseed oil wax is a new product. Rapeseed is cultivated in Europe, and this keeps transport costs low and places less of a burden on the environment. Rapeseed wax is 100% plant-based, natural and biodegradable. It is kosher and is not tested on animals. If it is spilled on clothes, it can simply be washed out in a regular washing machine. It has a cream colour and a neutral aroma. Rapeseed wax doesn't contain any genetically modified or hazardous substances.

We supply three varieties of rapeseed wax:

	WAX-00700	WAX-00710	WAX-00720
	price per kg	price per kg	price per kg
5 kg	5,43	5,07	5,73

240 kg	1,68
500 kg	1,53
1000 kg	1,38
2000 kg	1,24

Our **extremely economical** Ecowax is ideal for the production of freestanding candles and candles in glasses/pots. Ecowax is a recycled product made from oils and fats sourced from within Europe. Ecowax is environmentally friendly because surplus products are processed and because it is sourced from within Europe, thereby eliminating the need for long-distance- or air transport.

It has a beige colour and a mild, unique aroma. Ecowax is natural and biodegradable. If it is spilled on clothes, it can simply be washed out in a regular washing machine. If the environment is not your reason for buying Ecowax, its price will be.

WAX-00010

Ecowax for use in pots, garden pots, as a filling- or different type of wax

BEESWAX

It goes without saying that the most natural wax is beeswax. This product is now available at a very special price:

	Yellow beeswax BIJ-00001	White beeswax BIJ-00007
	price per kg	price per kg
1 kg	7,95	8,95
25 kg	6,95	7,45
100 kg	6,20	6,75
250 kg	5,80	6,15
500 kg	5,30	5,75
1000 kg	4,60	5,05
2000 kg	4,25	4,70
(A4 format)	Yellow artificial honeycomb BIJ-00014	White artificial honeycomb BIJ-00015
	price per kg	price per kg
1 kg	10,95	11,95
5 kg	9,95	10,65
10 kg	9,17	9,86
25 kg	8,19	8,83
100 kg	7,37	7,96

BIO SOAP

These bio soap granules are produced in Europe from biologically cultivated oils and fats. These ingredients are the basis for a pleasantly creamy and mild soap. Using our clay, bio herbs and allergen-free fragrances, you can produce TOP soap products.

CLAY & HERBS & OILS

(Bio)soap's natural character can be emphasised through the addition of various herbs and oils of which a number are also biologically cultivated. A natural colourant completes the picture. A variety of Gilde-werk clays are ideal for giving bars of soap a beautiful natural tone.

All our **clay** varieties, like green, white and yellow clays, can be found from numbers YDD-00001 and YDD-00010 with prices starting at € 9,95 per kg.

All our **herbs** are natural and can be found from numbers ZHR-00100 to ZHR-01800, priced between € 5,- and € 12,50 per 250 g.

You will also find our **BIO-herbs** here:
ZHR-01600 **Calendula leaf BIO**
250 gr € 14,45
ZHR-01700 **Verveine leaf BIO**
250 gr € 22,-

Our range includes a variety of **oils**. These plant-based oils can be found from numbers YHV-00001 to YHV-00011 priced from € 7,50 per litre.

We also supply **BIO plant-based oils**:
YHV-01001 **Argan oil Vierge BIO**
per ltr € 49,75
YHV-01002 **Sesam oil Vierge BIO**
per ltr € 34,95
YHV-01003 **Amandel oil vierge BIO**
per ltr € 42,39

En **BIO herb oil**:
YHV-02001 **St. Johns Herb oil BIO**
per ltr € 52,50
YHV-02002 **Calendula oil BIO**
per ltr € 47,95

BIO soap	ZKO-00006
	price per kg
5 kg	4,80
20 kg	3,41
100 kg	3,12
240 kg	2,93
500 kg	2,65
1000 kg	2,39
2000 kg	2,17

SHEA BUTTER

Beurre de Karité

Shea butter (beurre de karate) is a type of fat obtained from the nuts found on the Karite tree. This substance, which is good for the skin, can be used in its pure form, or as an additive to cosmetic products like soap.

YDD-00003 **Shea Butter** (Beurre de Karité)
per kg € 12,95

As BIO, we supply:

YDD-01001 **Shea Butter** (Beurre de Karité) **BIO**
per kg € 14,95

We also supply Shea Butter as lait de corps (bodylotion) or in 100ml pots.

ALUM

a crystalline rock salt

Fans of natural cosmetics can call on us for Alum sticks, pure natural deodorant without perfume or other additives.

Slum sticks can also be used for shaving. When alum is applied to the skin, the skin contracts and the hairs stand on end, allowing them to be shaved off more smoothly. The alum also helps to heal small shaving wounds.

YAL-01075 **Alum stone 75gr**
in box from
€ 2,15 each
YAL-00150 **Alum stone 150gr** in box from
€ 2,65 each
YAL-00001 **Alum deostick**
each from € 4,29

PERFUME OILS

To inform consumers, a list of 26 allergens has been compiled internationally. These substances must be listed on a cosmetic product's label if they are present in a certain concentration.

As a result, we have instructed our perfume producers to keep the concentration of these substances as low as possible. Because

precisely these allergens contain valuable fragrances, it is quite a challenge to still formulate a high-quality perfume.

A prominent new selection of products in the Gildewerk range is the allergen-free and the label free (limited allergens) perfume oils.

Over time, it has emerged that perfume oils often contain so-called allergens which can cause allergic reactions.

LABEL FREE

In addition to a number of new fragrances, we have a series of perfume oils within the familiar range of which the concentration of allergens is so low that they do not have to be listed on the label.

The greatest challenge is creating perfumes without allergens. It isn't possible to produce every desired fragrance without allergens. We are proud of the fact that we have been able to expand our range to include a number of high-quality allergen-free perfumes.
