10% DISCOUNT AFTER ATTENDING A WORKSHOP

As a result of the very many positive responses to last year's special offer, we're going to repeat it. It's already been announced, but we are letting you know one more time. We are offering a one-off **10% DISCOUNT** after participation in a workshop.

- The discount applies to virtually items.
- Applies to the first order submitted within two months of the workshop.
- Offer can be taken advantage of once every six months.

For the workshop schedule, visit:

WATERBASED DIPPING PAINTS

In addition to our silver and various gold paints, we now also have a number of colour variants with a metallic look. All of these paints are water-based and are made using cold-press methods just like the dipping paints that already form part of our range.

QUICK DRY DIPPING PAINT

A new addition to our range is this quick-drying transparent dipping paint. Its quick-drying solvent is not water based and improves bonding to the candle, making the paint especially well-suited to so-called cut candles (see picture).

Price per liter € 18,50

BODYMILK

We announced our bodymilk in the previous mailing. Unfortunately, we experienced some problems due to our supplier not being able to deliver on time. Thankfully, bodymilk is now freely available.

The milk contains no colour and fragrance and there are 2 variants:

Lait Corporel Tournesol is a nice smooth milk with sunflower oil.

Lait Corporel Karite is because of the shea butter a very rich milk especially suitable for a dry skin.

100 x / 5 L	€ 27,38	€ 24,75

ALUM STICK

The ideal remedy for those small cuts that everyone gets when wet-shaving. This natural mineral is related to salt and has a minimising effect on small cuts, making the skin 'close' as it were, and helping the wound heal faster. What most people don't know is that it can also be used with great effect as a deodorant stick. It is an ideal alternative, especially for people who are allergic to conventional deodorants.

2 TYPES OF TRANSPARENT WAX

Our transparent wax packaged in brown bags is smooth with a slightly crackled effect. This effect is hardly ever seen when the transparent wax packaged in white bags is used.

PERFUME OIL FOR SOAP

Fragrances are also dependent on trends. Along with the best perfume manufacturers, we work towards creating the most refined fragrant oils, and we always select the fragrances that best conform to our demands and to the wishes of our customers.

As a result, putting our collection together is a dynamic process during which less popular fragrances are phased out and new, modern fragrances take their place.

This means that customers who subscribe to our soap quality system will soon receive a new version of the label maker containing all details about the new fragrant oils.

PLUSMIX: OUR NEW PARAFFIN AND STEARIN BLEND.

It's possible to mix your own paraffin and stearin, but this is no longer necessary. We now have Plusmix, our own blend of paraffin and stearin that is easy to use and is very good value for money.

Our already-famous Mould mix remains unchanged. The Mould mix contains more ingredients than simply paraffin and stearin, making the final product very shiny and opaque. Plusmix is less opaque.
